CleanU® Temperature Strip

For checking the perfect CleanUrin® temperature.

Our CleanU® Temperature Strips are used to **check** the **perfect application temperature** (35-36°C) of CleanUrin®, for example **after using** our CleanU **Heatpaxx.**

The temperature strips are **easy to apply**, **self-adhesive** and **reusable**.

Instructions for use:
Simply **stick** the temperature strip **onto the 80ml CleanUrin® bag** and **read off** the **temperature**. When the **perfect temperature** is reached (35-36°C / 95-96.8°F), the **colour** on the **strip** changes to **green / blue**.

Scope of delivery:
1 × CleanU® Temperature Strip
